

MARKET REPORT NOVEMBER 2016 / 01

Almonds

...

Facts/Market Data:

The Almond Board will release their October 2016 Position Report on Tuesday afternoon 8th November, 3 days earlier than originally planned.

Californian shipments for October are likely to achieve 220 million lbs, although we should not be too surprised if shipments hit an all time record 230 million lbs. Last year 162 million lbs were shipped, the all time record figure was 228 million lbs in 2013.

Although almond prices increased significantly after the bullish September shipment report, prices have partly declined again during the last 10 days.

If you wish to increase your cover prior to the October report, please do by Tuesday lunch time.
