

MARKET REPORT / February 2015/02

Almonds

Despite the decline in January shipments [report issued last week], almond prices are unchanged. Most reports from California suggested that January shipments were affected by the port strikes as numerous containers did not reach the ports. There is little doubt shipments would not have declined by 28% if the West Coast Ports were operating to their normal capacity, however, shipments would still have shown a significant decline, most likely 15 to 18%.
