

MARKET REPORT APRIL 2016 / 01

Almonds

The Almond Board of California released their March Almond Position Report on Tuesday evening 12th April, with shipments of 161 million lbs, 15.3% below last year's 190 million lbs. A decline in shipments was inevitable as most of last year's large figure was as a result of the port strike delays from earlier months. A month ago most were expecting March shipments would not reach 140 million lbs, before the number was issued this was revised to between 155 and 165 million lbs. This shipment number should be regarded as neutral, despite being off 15% as it's the 2nd largest shipment month this season; only just below October number of 162 million lbs.
