

MARKET REPORT July 2018 / 03

Almonds

Facts/Market Data:

We are now on the cusp between Current Crop and New Crop in all the hazelnut origins which offers some welcome certainty, and also an interesting opportunity.

It would seem that the main crops from Turkey, Italy and Georgia are proceeding well towards harvest, with many of the price sensitive concerns (but not all) now being behind us.

While Turkey is not a bumper crop this season, at some 650,000 tonnes on an inshell basis, it would seem to be adequate, for the season to come, not least because we have the cushion of 2017 crop with the TMO and others in Turkey, if required.
