

MARKET REPORT JUNE 2024

Almonds

Facts/Market Data:

On Tuesday 11th June the Almond Board of California published the position report for the month of May. A shipment number higher than last year was expected as new sales have been very high the last few months. Good new sales were also expected as demand had been strong. It has become increasingly clear that the transition between current and new crop will be tight with a carryover well below 500 million lbs. Certain grades and sizes will not be available.
