

MARKET REPORT February 2019 / 01

Almonds

Facts/Market Data:

The shipment numbers for January 2019 were released Tuesday, the 12th of February, by the Almond Board. With 209.6 million lbs shipments were on the higher end of the expectations being up 8.3% or 16.1 million lbs on last year. Year to date sales are down 1.2% or approx. 15 million lbs.

This makes this January the biggest January ever. Prior to last year average shipment for January were approx. 150 million lbs. While the number itself was more or less as expected, the number to watch and the number that could have brought some excitement in the market were the receipts. With January receipts just short of 50 million lbs, it was a little disappointing. But perhaps hoping for more was just wishful thinking?
