

MARKET REPORT February 2024 / 01

Almonds

Facts/Market Data:

On Friday 9th February the position report for January 2024 was published. Talks leading up to the position report were about good shipment and new sales being a little slow. In the end shipments came in at 235 million lbs, 6.2 million lbs or 2.7% higher than January last year. Maybe a little disappointing for California, but they put their finger on the fact that it is a new all-time high for a January. Year-to-date shipments are now up 109 million lbs or 8.6%.
